SCAN-TASTIC  
WAREHOUSING!

# Tasklet Mobile WMS

BC/NAV

## Warehouse Management Made Easy

Get SCAN-tastic with Tasklet Mobile WMS – your perfect companion for Dynamics 365 Business Central and NAV. Experience a reliable and user-friendly barcode scanning solution that boosts efficiency and accuracy in your warehouse.

With its intuitive design, offline functionality, and a wide range of features, Mobile WMS empowers your team to work faster with real-time data and digital guidance at their fingertips.

Ready to get started?

Try now!

# Benefits

## Offline Capability

Never lose valuable data. Effortlessly streamline warehouse operations, even in Wi-Fi dead zones.

## Integrates to Standard

Get an extended arm for Dynamics 365 BC/NAV. Adjust and receive data in real-time directly on your scanner.

## Quick and Easy Installation

Experience smooth implementation and enjoy low-risk upgrades.

## Easy to Customize

Start with standard functionality and tailor to fit your specific needs for a solution that fits like a glove.

## User-Friendly

An intuitive interface with digital guidance makes it easy to get started and perform your tasks quickly and efficiently.

## Outstanding Support

You are our absolute top priority! Whether you're an end-user or implementor, you can count on our highly skilled experts to assist with any issues you may encounter.

# Features

## Receive

Register and control received items. Supports lot/serial numbers and expiry dates.

## Put Away

Assign a bin to the received items.

## Pick

Picking of single or consolidated orders.

## Move

Perform planned, unplanned, and bulk movements of items.

## Count

Perform planned counts.

## Adjust Quantity

Complete a negative adjustment and provide a reason code.

## Bin Content

Look up the content of a warehouse bin.

# Features

## Locate Item

Look up the bin, the available quantity, and the product data of an item.

## License Plate

Group and move items with just one scan.

*\*Only for Business Central*

## Assembly

Report consumption and output on assembly orders.

## Production

Report consumption, output and time of released production orders.

## Print Label

Print labels from the mobile device.

## Shipping

Perform shipment of your items from the mobile device.

# Features

## Pack & Ship

Finish the packing and shipping directly from the mobile device.

*\*Only for Business Central*

## Attach Image

Use the camera on your mobile device to attach pictures in the work process or create item images.

## Substitute Item

Scan an item barcode and look up substitute items.

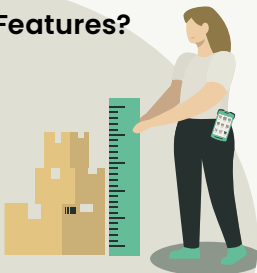

## Item Cross Reference

Associate or add a barcode to an existing item.

# Tasklet Mobile WMS

**50+**  
countries

**20,000+**  
sold licences

**2,000+**  
happy customers

**500+**  
partners

FEATURE  
**Receive**

"Before Mobile WMS,  
large orders could take  
1 ½ days to receive.

Now we can do  
the same work in  
2-4 hours."

**Niels Krogh**

Operations and  
Logistics Manager

nice  hair

FEATURE

## Pick

"We've reduced picking errors to just 0.33% on all order lines.

Considering each error takes at least half an hour to resolve, the time savings are massive."

**Christian Busch**

Warehouse Manager

**INTERCAMP** 

## FEATURE Count

"In our old pen and paper world, the annual inventory count would take up to 4 days.

This year, the whole process was completed in less than 2 days."

**Jean-Francois  
Giroux**

Owner

**CATSPORTS**  
DISTRIBUTION • SPORTS • RECREATION

## FEATURE Production

"We reduced production errors from 112 in 2019 to just 16 in 2024 after implementing Tasklet.

That is an 85% reduction which is a huge improvement and shows how impactful the system has been for us."

**Daniel Bækgaard**  
Logistics Manager

FEATURE  
**Pack & Ship**

“Reaching 99% accuracy in shipment, especially in a process involving people, is incredible.

Scanning items using Tasklet has made a tremendous difference for our business.”

**Kenneth Aabenhus**  
Warehouse Manager
