MOBILE WAREHOUSE SOLUTION

OPTIMIZE WAREHOUSE PROCESSES WITH A MOBILE WMS SOLUTION FOR MICROSOFT DYNAMICS AX

Mobile WMS from Tasklet Factory supports the work processes in the warehouse and integrates to the standard functions of Dynamics AX.

It features a stunning graphical user interface which is easy to use and can be configured to fit the needs of the individual user. Your warehouse employees will be more efficient and make fewer mistakes as Mobile WMS provides the tools and information needed to work effectively. Installation and support of the solution is easy as it is directly integrated with the standard features of Dynamics AX.

ADVANTAGES

STANDARD DYNAMICS AX
Mobile WMS is 100% integrated with standard Dynamics AX. All versions are supported.

REDUCE ERRORS, NO PAPERWORK
Moving from a paper based work process to a fully automated mobile solution will reduce the number of errors significantly. Item registrations are validated using the built-in barcode scanner.

ON/OFFLINE FUNCTIONALITY
The core working processes can be performed without any network connection. The result is a stable solution with great performance.

ADVANTAGES

USER-FRIENDLY

Mobile WMS has been designed with focus on minimizing clicks and irrelevant information. Users will spend minimal time on user training and they quickly learn to master the mobile device.

ADAPTABLE, TAILORED TO YOUR NEEDS

The standard functionality covers the needs of most companies, but sometimes a special work process needs a special solution. Mobile WMS has been designed so it can be extended with custom functionality easily. All modifications are done directly in Dynamics AX.

FEATURES

RECEIVE
Register and control received items. Supports expiry dates, batch- & serial numbers

PICK
Pick items for orders and prepare them for shipment or production

COUNT
Count items according to inventory journals or as unplanned counts

PROFIT/LOSS JOURNAL
Increase or reduce quantity of items from the inventory
